BIOGRAPHY

 [mattiasderidder/](#)

 [MattiasDR](#)

Experienced developer with a strong background in front-end development and UX/UI design, specialized in the eCommerce and agricultural tech sectors. Proficient in creating responsive websites and mobile apps that prioritize user satisfaction, using the latest technologies and frameworks.

I have significantly enhanced interface performance and backend scalability, integrating real-time data systems and pioneering advanced development strategies including GraphQL and Socket servers.

My efforts consistently focus on improving user experiences and driving business growth through strategic and technical innovations.

EXPERIENCE

🕒 FULL STACK DEVELOPER

Agrilog Inc.
Longueuil, QC, Canada

Aug 2023 - Feb 2024

Drove full-stack development to boost interface performance and backend scalability, facilitating business expansion during critical periods.

Crafted robust backend solutions with TypeScript and JavaScript, managed PostgreSQL and ElasticSearch databases, and collaborated on edge computing integration

Leveraged GraphQL and Socket servers for efficient data handling and real-time communication, enhancing system responsiveness and user interaction.

Led the implementation of SDLC principles, branch strategies, and development workflows, streamlining processes and ensuring design consistency with Next.js and a comprehensive design system.

Spearheaded documentation initiatives to standardize development practices and promote knowledge sharing.

Navigated seasonal shifts in project demands, providing critical enhancements and support to maintain operational excellence.

● FRONT-END DEVELOPER, UX & UI DESIGNER

smartphoto group NV
Wetteren, Belgium

Sep 2018 - Oct 2022

Led the design and development of a multilingual web application that expanded user access in over 14 countries, enhancing Smartphoto's reach.

Applied expertise in HTML, CSS, JavaScript, and React to create responsive, mobile-first designs that optimized user experience across devices.

Conducted user research and usability testing to refine intuitive and visually appealing design solutions, boosting user satisfaction.

Developed a company-wide email signature tool and established a comprehensive internal design system, standardizing brand consistency across departments.

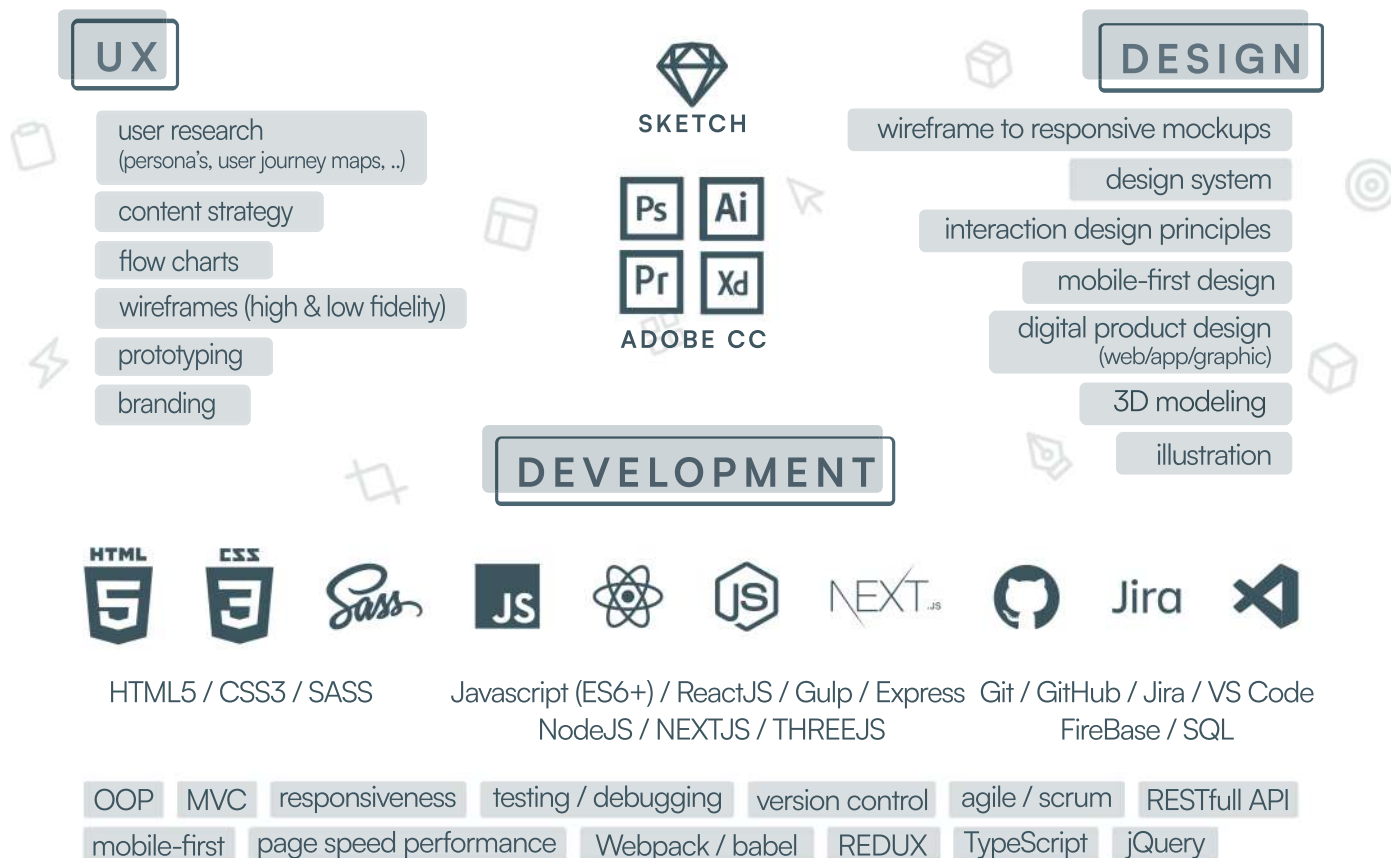

● WEBDEVELOPER - FULL STACK

t'Rozenland
Lede, Belgium

Sep 2017 - Sep 2018

Successfully managed the full lifecycle of user-friendly, multi-page websites for the landscaping industry, from design through maintenance.
